

FIVE NEW YEAR'S RESOLUTIONS FOR PET OWNERS

Start Out 2019 on the Right Paw!

1

CHECK THEIR TAGS

Make sure your pet's rabies tag, I.D. tag and/or microchip registration, and your contact info are all up to date. This is the best way to ensure a lost pet makes it safely back home!

2

RETHINK THE MENU

As with people, a pet's nutritional needs change over time. Consult your vet for advice on food types and portion sizes that are specifically tailored to your animal's breed, age, and size. An appropriate diet, along with quality snacks, will help keep your pet not just happy but healthy.

3

SCHEDULE A DATE WITH YOUR VET

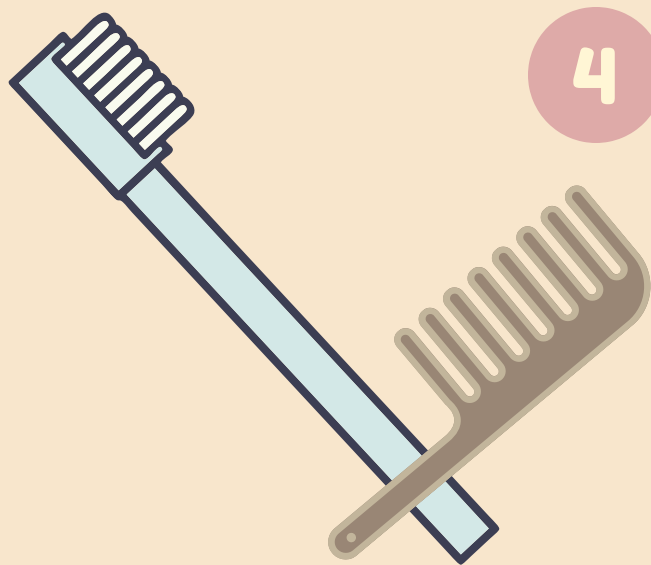

It's not just about a yearly rabies shot. An annual examination of your pet by a trusted veterinarian is a key component of any preventive care routine. The early detection of potential disease is easier on your pet—and your wallet!

4

MAKE A HABIT OF GOOD HYGIENE

Regularly wash your pet's food bowl and bedding. Brush their teeth every day to eliminate tartar buildup and help prevent dental disease. And daily grooming sessions will ensure a healthy coat—and strengthen the bond with your pet!

5

SET ASIDE MORE QUALITY TIME

Don't just snuggle! For aerobic well-being (yours AND your pet's), take them out for long walks, invest in stimulating toys, and invent new indoor games to keep them active and engaged.
